

AKC S.T.A.R. Puppy, Mary Burch, Ph.D.

The AKC S.T.A.R. Puppy Program will help your puppy, purebred or mixed breed become a well behaved and healthy member of your family and the community. Socialization, Training, Activity and Responsible Ownership are what every puppy needs in order to have a good life and this book will help you every step of the way! Puppies who graduate from S.T.A.R. classes have the foundation to be successful in the AKC's Canine Good Citizen (CGC) program and succeed in more advanced activities such as obedience, agility, rally and therapy dog work.

Plenty in Life is Free, Reflections on Dogs, Training and Finding Grace

Kathy Sdao, ACAAB

In this book, renowned dog trainer Kathy Sdao reveals how her journey through life and her decades of experience training marine mammals and dogs led her to reject a number of sacred cows including the leadership model of dog training. She describes in narrative fashion how she has come to focus her own training philosophy which emphasizes developing partnerships in which humans and dogs exchange reinforcements and continually cede the upper hand to one another.

Juvenile Delinquent Dogs, Sue Brown

While we think of juvenile delinquents as adolescents or teenagers, juvenile delinquent dogs can be any age: puppies, adolescents, adults and sometimes even seniors. This book is probably the most complete manual on the market today on dealing with problem behaviors and more importantly, how to avoid them in the first place. Whether your dog is an adolescent or just an adolescent at heart, this book is for you.

Love Has No Age Limit, Welcoming an Adopted Dog into Your Home

Patricia McConnell, Ph.D. and Karen London, Ph.D.

So here you are, right next to a new dog who just entered the house, and whose life history you know little or nothing about. Now what? How do you welcome an adult or adolescent dog into your home and incorporate this new individual into your family? This booklet is designed to help you ease the transition from "new dog" to "family member" by guiding you through the first steps of this new relationship. *Love Has No Age Limit* includes information on what to do as you enter the house, how to handle the first few days, what to do and what not to do as you get to know each other.

96 Pages, Paperback & eBook, 5.5" x 8.5" 9781891767142 DTB1214 \$9.95

Dogwise Publishing produces how-to books and DVDs on dog health, training, breeding, and showing. We focus on bringing humane, understandable, and scientifically sound information on dogs to people who enrich their lives by working with, playing with, and loving dogs. Dog owners, trainers, veterinarians, veterinary technicians, breeders, and dog clubs recognize the name **Dogwise Publishing** and know that they will get a quality product with cutting edge information. We have a 9,000 square foot warehouse in downtown Wenatchee and invite customers and their pooches to come visit us and browse our aisles. You will find a carefully screened selection of 2000+ book and DVD titles and the best training tools, toys, and treats on the market.

Sincerely, Dogwise Staff and the Woodward Family

Canine Behavior

A Photo Illustrated Handbook
Barbara Handelman, M.Ed, CDBC

Dogs have deliberate, subtle, and often humorous ways of expressing themselves. Canine Behavior has 1,000 images of dogs, wolves, coyotes, and foxes illustrating the behavior and communication principles defined in the

book. Created for everyone interested in dogs—pet owners, trainers, veterinarians, ethologists, and behaviorists. Spend hours, if not years, studying and learning from this book.

"Dogs are not our whole life,
but they make our lives whole."
-Roger Caras

Behavior and Training

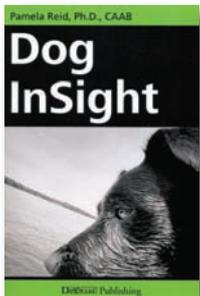

Between Dog and Wolf

Understanding the Connection and the Confusion

Jessica Addams and Andrew Miller

Most scientists now agree that the dog is a subspecies of wolf—*Canis lupus familiaris*. And while most wolves look and act differently from most dogs, it can be very hard to make accurate identifications, especially since wolves and dogs can and do interbreed and certain breeds of dogs look and act a lot like wolves. Having spent years employed at Wolf Park, in Indiana, authors Jessica Addams and Andrew Miller have encountered hundreds of so-called wolves that turned out to be dogs, hybrids that exhibit the characteristics of both wolves and dogs, and even pure wolves that act like dogs. *Between Dog and Wolf* takes a fascinating look at how wolves and dogs are related, why they can be so hard to tell apart and what rescue organizations need to know when they encounter a canine of unknown origins.

The Human Half of Dog Training

Collaborating with Clients to Get Results

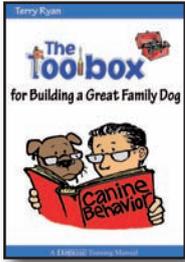

Risé VanFleet, Ph.D., CDBC

What is challenging for so many trainers is that their success in working with dogs ultimately depends on the cooperation, understanding and follow-through of the people who bring their dogs to them to be trained. Failure to work with people often leads to failure with the dogs. In *The Human Half of Dog Training*, author Risé VanFleet draws upon her years of experience of working with people as a child and family psychologist to teach dog trainers how take a collaborative approach with clients to help insure the best possible outcomes for their dogs.

Behavior and Training

Chill Out Fido!

How to Calm Your Dog
Nan Kene Arthur

Does your dog go bonkers when the doorbell rings or when you grab the leash to take him for a walk? Getting your dog to calm down and relax is one of the most common challenges pet parents face. This two-part book will help you first identify the factors that cause this kind of behavior in dogs, then it provides you with eleven key training exercises to teach your dog how to calm down, pay attention to you, relax, and respond to every day situations with confidence and composure.

Canine Body Language

A Photographic Guide

Brenda Aloff

Your dog is “talking.” Are you listening?

More important—are you WATCHING? Dogs are attempting to communicate with humans as well as other dogs all the time. It’s up to us to learn how to interpret their native language—the language of body movement, facial expression and proximity to things and other beings.

Canine Body Language is an exhaustive photographic documentation of dogs in their day-to-day activities: dogs alone, dogs together, dogs in the water, dogs having fun, dogs that are stressed and dogs in relation to human beings. In addition to the incredible photographs, author Brenda Aloff gives the reader detailed descriptions of what is happening in each photograph so that you can build your canine vocabulary.

Never look at dogs in the same way again!

- Learn how to analyze what you see when observing dogs to prevent problems or improve behavior.
- Follow the helpful photographic sequences and text to learn how to identify the subtle changes in canine body posture that tells you what a dog is thinking.
- Develop a profound appreciation for the intelligence and adaptability of dogs.
- Great for professional dog trainers! Use it to teach students important behavioral cues.

What dog trainers are saying about Brenda Aloff’s *Canine Body Language*

A great tool for the dog professionals. A truly valuable work which will be used as a reference for my clients, as well as the behavior staff at the Marin Humane Society. Brenda’s comments on canine communications are as valuable as the excellent images that form the bulk of the book.

Trish King, Behavior and Training Director of Marin Humane Society, author of *Parenting Your Dog*

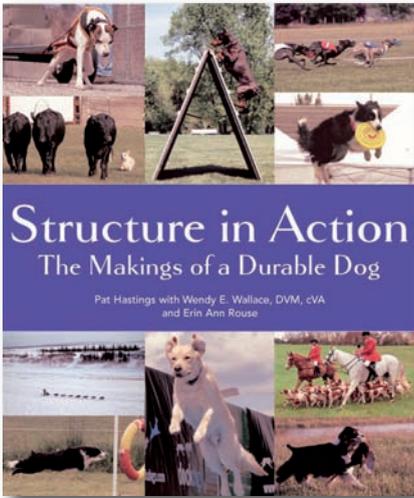

Once I started reading it, it quickly became apparent that this book should be mandatory reading material for virtually every dog owner. Brenda’s description of the canine language and the contexts in which they occur is very well documented.

Ali Brown, author of *Scaredy Dog! Understanding & Rehabilitating Your Reactive Dog*

370 Pages, 432 B&W Photos, Paperback, 8.5” x 11” 9781929242351 DTB856 \$39.95

Author Brenda Aloff is a professional dog trainer specializing in problem behavior. A large part of her practice consists of dogs that have been referred to her when traditional training techniques have failed. She works with owners on re-socialization of fearful and aggressive dogs as well as teaching puppy socialization, competition obedience, conformation, tracking, back-packing, musical freestyle, and agility classes at Heaven On Arf Behavior and Training Center in Midland, Michigan. She is a member of The Association of Pet Dog Trainers, and The Association of Dog Obedience Instructors, Trainer’s Forum and several other breed and training organizations. Brenda travels all over the United States giving talks on canine aggression and learning theory.

Featured Titles

Structure in Action

The Makings of a Durable Dog

Pat Hastings with Wendy E. Wallace & Erin Ann Rouse

Many people probably think that all the fuss that breeders and fanciers make over their purebred dogs—how they look, how they move—is unnecessary. Why do the teeth need to be just so? Why does a judge do such a thorough hands-on evaluation of twenty dogs that to most of us look so much alike? The answer lies in the fact that purebred dogs are bred for a specific purpose and that the structure of the dog impacts its ability to do what it has been bred for be it retrieving game, guarding livestock, tracking lost people, or pulling sleds full of supplies to a snowed-in village.

In her latest book, renowned judge and evaluator of dogs Pat Hastings explores the dog from head to tail and examines in great detail how a dog's structure can enhance or inhibit its ability to perform. While many books explain how dogs are supposed to look, *Structure in Action* takes the next step to explain why it so important given the purpose the dog is designed to serve. This well illustrated book will become an instant classic.

Here are just a few of the many examples of how structure impacts action

- Learn how to analyze what you see when observing dogs to prevent problems or improve behavior.
- Why a round bulging eye, a desired look in many lap dogs, is susceptible to injury.
- Dogs whose backs have an extreme downward slope are very prone to breakdowns of the front quarters impacting their ability to run and jump.
- A dog whose rear legs are too short and are set directly below the rear assembly will lack normal propulsive power and are subject to back and spinal injuries
- Great for professional dog trainers! Use it to teach students important behavioral cues.

What dog professionals are saying about Pat Hasting's *Structure in Action*

Pat has done it again with this incredible journey into structure and the pertinence to action. This is a must read for anyone who owns and works with dogs – the dogs' structure has to be considered when examining the job of the dog. Pat outlines structure clearly and precisely as it pertains to the action of the dog. Dogs will be forever grateful.

Dr. Debbie Gross Saunders, Certified Canine Rehabilitation Practitioner Author, lecturer and teacher

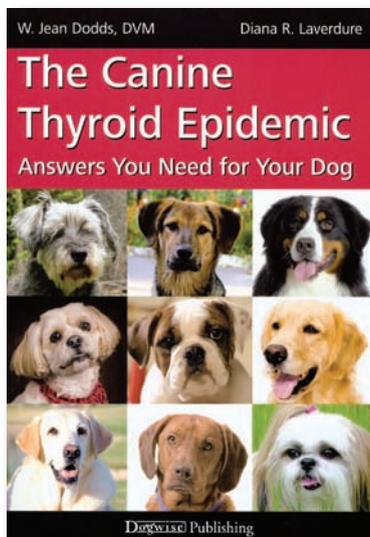

Agility handlers put a lot of time and effort into searching for the “perfect” dog for their next agility prospect. But no dog is perfect; like people, all dogs have structural imperfections and evaluate them in relation to what we are asking the dog to do in our sport....Unitl now, there hasn't been a reference on structure specifically aimed at owners of dogs chosen for an active lifestyle. *Structure in Action* fills this hole. It looks at dogs from head to toe in a practical and understandable manner. For what our dogs give us everyday, we owe it to them to read this book.

Monica Percival, Editor, Clean Run magazine, 4-time National Agility Champion

168 Pages, Paperback, 9" x 7.5" 9780967841441 DAN125 \$29.95

Author Pat Hastings began her career as an owner-handler, moved into breeding, then teamed up with her husband in professional handling. She is currently an AKC Judge of the Herding, Non-Sporting, and Working Groups, Junior Showmanship, and Best in Show. Her seminars and presentations are well received here and abroad. She has articles published in a variety of dog magazines including AKC Gazette, Dog News, and Clean Run. Pat lives in Aloha, Oregon.

The Canine Thyroid Epidemic

Answers You Need for Your Dog
W. Jean Dodds & Diana Laverdure

Problems with your dog? It may be his thyroid!

If your dog is lethargic, losing his hair, gaining weight or suddenly becomes aggressive, perhaps the last thing you (or your vet!) would think about is his thyroid. Unfortunately, however, thyroid disorders can cause literally dozens of health and behavioral problems in dogs and frequently go undiagnosed or are misdiagnosed. And the real tragedy is that most thyroid problems are treatable with the right medical care and a well-informed owner can often minimize the chance of a thyroid disorder occurring in the first place.

Noted veterinarian Jean Dodds and co-author Diana Laverdure have done the dog owning public and their vets a great service by writing *The Canine Thyroid Epidemic*. The book is written in such a way to inform both the average dog owner and animal health care professionals about the ways in which thyroid disorders occur, can be prevented and treated.

You will learn about:

- The role of the thyroid and why it is essential to a dog's health.
- How to identify the clinical signs and symptoms of thyroid disorders.
- The lab tests needed to identify thyroid problems and how to administer the proper medicines.
- How an increasingly toxic environment can impact your dog's health.

What experts are saying about *The Canine Thyroid Epidemic*

There's probably no one in the dog world who garners as much respect from all quarters as Dr. Jean Dodds. Her latest work alarms and alerts us to an epidemic of thyroid disease of staggering proportions. It alarms us as we witness the early age at which the disorder now commonly appears, and alerts us to how commonly we aggravate the problem through breeding, vaccination and feeding practices.

Steve Marsden, DVM, Canadian Vet. Med. Assoc. Small Animal Clinician of the Year, 2009

The Canine Thyroid Epidemic is an amazing, life-saving gift to countless dogs and the people who love them. This expertly crafted guide provides the tools, advice and information needed to help dog parents navigate this complex, often misdiagnosed and misunderstood disease. From recognizing the signs to finding the right veterinarian to long-term management, I can't imagine a better resource. Thanks to Dr. Dodds and Ms. Laverdure for shedding light on this epidemic in terms we can all understand.

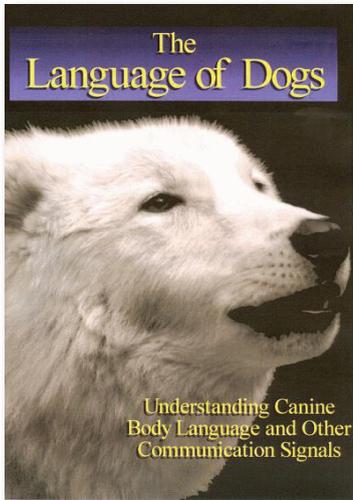

Melanie Monteiro, author of *The Safe Dog Handbook*

192 Pages, 31 Color Photos, Paperback & eBook, 7" x 10" 9781933562063 DV234 \$19.95

Dr. W. Jean Dodds received the D.V.M. degree with honors in 1964 from the Ontario Veterinary College, University of Toronto. She is the owner of Hemopet, the first nonprofit national blood bank program for animals. She and her husband live in Santa Monica, California.

Diana R. Laverdure received a bachelor of arts in English magna cum laude from Tufts University. A lifelong dog lover, and journalist for over twenty years, she is a frequent contributing writer on dog health and dog care topics to a variety of national dog magazines. She and her dog Chase live in Boynton Beach, Florida.

The Language of Dogs DVD Set

Understanding Canine Body Language and Other Communication Signals

Sarah Kalnajs

Watch canine body language in action

What is your dog trying to tell you and other dogs? How can you tell when play turns into aggression or whether a dog is showing friendliness, fear, or stress? Language of Dogs contains extensive footage of a variety of breeds showing hundreds of examples of canine behavior and body language. Learn how to identify common behaviors including look-aways, freezes, submissive grins, tail flags, dog smiles, sneezes, shake-offs, urogenital check-outs, displacement behaviors—the list goes on and on. Behaviorist, trainer and popular seminar presenter, Sarah Kalnajs teaches you how to read body language so that you can develop a better understanding of what's really going on in the canine world. The DVD menu has useful categories including “Stress”, “Distance Increasing Signals”, “Distance Decreasing Signals” and more. Includes behavior sequences so that the behaviors can be seen as they would occur in the real world.

Those who work or live with dogs need this DVD!

- Veterinary Clinic Staff, Veterinary Students, Vet Tech Students
- Dog Trainers and Behavior Consultants
- Dog Daycare Staff, Groomers, Breeders
- Animal Shelters and Rescue Groups
- Utility and Public Works Crews, Law Enforcement
- Pet Owners

What other canine behaviorists say about *Language of Dogs*

The Language of Dogs is simply the best resource on the market for dog trainers, owners, and others who seek to enhance their knowledge and understanding of canine body language.

Pat Miller Author of *Positive Dog Training* and *Positive Perspectives. Love Your Dog, Train Your Dog*

Sarah has identified a broad range of postural communication signals and taken the interpretation of them to a whole new level. Being able to see multiple examples of each behavior is highly valuable as is the discussion of the distinction between behaviors that might superficially look the same. Sarah presents her information in a warm and funny manner. This DVD set would be valuable for anyone who wants to gain a better understanding of how dogs communicate stress, and distance increasing/decreasing behaviors.

James O'Heare Author of *Canine Aggression Workbook, Dominance Theory and Dogs*

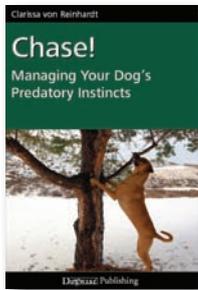

Sarah's Language of Dogs DVDs are exceptional. I'll watch them again and again and again. You are a gifted teacher, too. I highly recommend the DVDs.

Lynn D. Hoover Author of *The Family in Dog Behavior Consulting*

Running Time: 133 Min. on 2 Discs 897059001016 DTB875P \$39.95

Sarah Kalnajs, CPDT, CDBC, has more than ten years experience working in canine behavior, training, and research. She has her own training school, serves as an expert witness in litigation involving dog aggression, is a consultant to humane societies, and writes extensively on canine behavior and training. She focuses on helping people understand and live well with dogs. She lives with her husband Andrew and eight dogs--six Shelties and two American Eskimos, two cats and a very nice vacuum cleaner in Madison, Wisconsin.

Behavior Adjustment Training

BAT for Fear, Frustration, and Aggression in Dogs
Grisha Stewart, M.A., CPDT-KA

BAT looks at the function of growling, lunging, or fleeing and helps dogs learn socially acceptable behaviors that serve that same function. In a nutshell, BAT

builds confidence by giving dogs a chance to learn to control their environment through peaceful means. That makes BAT very empowering to your dog or puppy, in a good way. It's also empowering for you, as you learn how to understand your dog and help him learn to safely get along with people, dogs, and other "triggers."
